BUILDING WHAT MATTERS, LEADING WHAT SCALES

Paweł Ostromecki

Senior Fullstack Engineer · Angular Wrocław community lead

8+ years shipping scalable web and mobile platforms across **finance, defence, automotive, regtech and e-commerce.**

Fullstack engineer with backend experience in **Java and Node.js.** I design modular frontends, own architecture decisions end-to-end, and lead by teaching — currently moving deeper into **distributed systems, intelligent systems and applied AI.**

Angular

React

Vue

Nx

Microfrontends

Node.js

NestJS

GCP

CI/CD

Java · Spring Boot

System Design

AI · LLM · ML

SQL

01 What I bring to a tech-lead table

ARCHITECTURE & SCALE

- Nx monorepos, module federation, microfrontends
- Modular domain boundaries & dependency rules
- System design reviews, architecture RFCs

ENGINEERING LEADERSHIP

- Angular Wrocław community lead — talks, workshops, mentoring
- Code review culture, pairing, knowledge-sharing
- Cross-team architecture alignment

DELIVERY & PLATFORM

- CI/CD on GitLab, Jenkins, Azure Pipelines, Cloud Build
- Google Cloud & Azure, Vertex AI
- PostgreSQL, MongoDB, Firebase

CURRENTLY LEARNING

MSc Computer Science — Intelligent Systems specialization at Politechnika Opolska (started October 2025). Going deep on **AI, LLMs and classical ML**, building production pipelines on Vertex AI + Gemini and exploring agentic developer tooling.

CORE STACK

- TypeScript
- Angular
- React
- Vue
- RxJS · NgRx
- React Native · Expo
- Ionic · Capacitor
- Node.js · NestJS
- Java · Spring Boot
- PostgreSQL · MongoDB
- GCP · Azure
- Vertex AI
- Jest · Karma
- SCSS · Tailwind

02 Experience

- Senior Frontend Developer** 06.2024 – present
CSHARK
 - Designing and owning a drag-and-drop form builder used across production systems
 - Driving system-design decisions and accessibility standards beyond a single team
 - Rebuilt Azure Pipelines for frontend apps — faster, more reliable release trains

Angular · Nx · Module Federation · Material CDK · Azure DevOps
- Senior Frontend Engineer** 11.2023 – 05.2024
Stibo Systems
 - Delivered features for Stibo Enhanced Content / PDX — an industry-leading MDM product
 - Led architecture analysis and investigation of cross-cutting solution outlines

Angular 16 · Nx · Node.js
- Senior Frontend Developer — Freelance** 06.2023 – 10.2023
IT Bees · Park Control 24
 - Built a greenfield mobile app — camera, notifications, native network integrations on iOS & Android

Ionic 7 · Capacitor 5 · Angular 16
- Frontend Developer** 07.2021 – 10.2023
GOD Nearshore — Automotive
 - Enterprise ERP-class application for the automotive sector
 - Migrated a legacy Ionic 3 + Cordova mobile stack to a modern Nx · Ionic 6 · Capacitor 5 architecture

02 Experience — earlier

● Full-Stack Developer 07.2020 – 07.2021

[Sendit S.A. — Logistics e-commerce](#)

- Built and integrated features across a high-traffic logistics platform
- Moved between frontend, backend and integration work

● Frontend Developer 01.2020 – 06.2020

[Angry Nerds](#)

- Delivered client-facing product features in a fast-moving agency setup

● Junior Software Developer 05.2018 – 12.2020

[Exence S.A. — Finance & Defence](#)

- First exposure to regulated domains — finance and defence
- Early experience with Java / Spring ecosystem alongside frontend work

EDUCATION

● MSc Computer Science — Intelligent Systems 10.2025 – present

[Politechnika Opolska](#)

- Specialization in AI, ML and intelligent system design

● BSc Eng. — Computer Science completed

[Wrocławska Wyższa Szkoła Informatyki Stosowanej](#)

COMMUNITY & SPEAKING

Angular Wrocław — community lead ongoing

Meetup organizer · speaker · mentor —
